Dear Parents and Staff:

The purpose of this letter is to keep you informed about the ongoing site work for the Music Instructional Space and Auditorium (MISA) project at Greenwich High School. During the excavation work in the parking lot behind the building, the construction workers discovered unexpected soil conditions. As a precaution, environmental testing was conducted.

Initial soil tests have been completed and the results have not revealed any evidence of health hazards. We are conducting an additional level of testing and expect the results early next week. By way of reminder, this is an active construction site and access is restricted.

While we have not yet received any evidence of a health hazard, we take any potentially adverse environmental conditions seriously. In an effort to be proactive, we will conduct environmental testing throughout the timeframe of the Greenwich High School MISA project. We will also continue to communicate information on the project periodically and/or as necessary.

Sincerely,

S. Freund

Sidney A. Freund
Superintendent
Greenwich Public Schools
